

Build A Better Austin Pledge

I COMMIT TO THE FOLLOWING:

- **Raise construction working standards by requiring Better Builder on construction sites where the city has the power to do so (ground leases, PIDs etc)**
- **Work with us to implement and expand the Freedom Cities policies (passed in June) to reduce racial disparities that criminalize people of color and to implement policies that disrupt the arrest to deportation pipeline.**
- **Create a dedicated department to enforce paid sick leave policy, Austin's policy for non-discrimination for sexual orientation and gender identity, and other protections for workers and community members.**
- **Use your power as a councilmember to support immigrant members of our community when they are in deportation proceedings.**
- **Implement policies to care for injured workers who are not covered by workers compensation.**
- **Fight to implement and protect Austin's Paid Sick Leave policy as passed.**
