2. Prepare the District's annual budget using Local Gov't Code, Chapter 111, Section 63 as the method for formatting a budget in the same manner used by the Travis County Planning and Budget Office, except that the District's CFO shall serve as the budget officer and will obtain any information necessary to prepare financial statements from District auditors, as necessary, and references to projects shall refer to programs, as those terms are defined in District's budget.
3. In delivering funds for any Interlocal Agreement, Memorandum of Understanding or any other contracting method with a non-profit or governmental entity, the District will comply with all applicable statutes and constitutional requirements, including Tex. Const. Art. III, Sections 52(a), and Texas Health & Safety Code Chapters 281 and 61 to ensure that all funds are used for the purposes as set forth in law. The District shall ensure adequate controls are in place so as to avoid jeopardizing the District's ability to comply with all applicable laws. In addition, the District shall include this requirement for compliance in every service contract with vendors, and affiliated units and non-profits (i.e., CommUnityCare, Sendero, Community Care Collaborative, and Capital City Innovation).
4. Maintain an adequate and effective system of internal controls over the District's financial operations (including transactions and reporting). At a minimum, adequate internal controls should be maintained and monitored for the following areas: cash handling and management, collections, receivables, liabilities, capital assets, and financial reporting. The District shall enter into arms-length transactions to protect its appropriate profit sharing or other interests in intellectual property and commercialization rights in all agreements for all the products and services it funds.
