RE: Appraisal of Multifamily-Mid/High Rise located at 214 Barton Springs Road , Austin, Travis County, TX 78704, prepared by Newmark Knight Frank Valuation & Advisory, LLC (herein "Firm" or "NKF")

NKF Job No.: 19-0004647-1
Dear Ms. Michel:

The subject is a 300-unit, Class-A, high-rise apartment property situated along Barton Springs road in Austin, TX. The improvements were constructed in 2015 and are in excellent condition. The project exhibits typical Class-A amenities and finishes as well as views of downtown Austin. The subject site is 1.46 acres, or 63,598 SF.

At the client's request, we have provided a retrospective value of the subject property as of December 31, 2018. NKF inspected the property on June 5, 2019.

Key Value Considerations

Strengths

- ❖ Strong market acceptance of the subject property
- ❖ Situated within the popular 78704 zip code

Risk Factors

- ❖ Competing high-rise properties are situated within the CBD, a superior location.
- ❖ Continued new construction entering the market.

Based on the analysis contained in the following report, the opinion of value for the subject is:

Extraordinary Assumptions

An extraordinary assumption is defined in USPAP as an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false,

could alter the appraiser's opinions or conclusions. The value conclusions are subject to the following extraordinary assumptions that may affect the assignment results.

1. The retrospective 'as is' date of value assumes that the physical condition of the subject as of the date of value, December 31, 2018, is similar to the date of observation June, 5, 2019.

The use of this extraordinary assumption might have affected assignment results.

Hypothetical Conditions

A hypothetical condition is defined in USPAP as a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. The value conclusions are based on the following hypothetical conditions that may affect the assignment results.

1. None

The appraisal was developed based on, and this report has been prepared in conformance with the Client's appraisal requirements, the guidelines and recommendations set forth in the Uniform Standards of Professional Appraisal Practice (USPAP), the requirements of the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute, Title XI of the Financial Institution Reform, Recovery and Enforcement Act (FIRREA) of 1989, and the Interagency Appraisal and Evaluation Guidelines (December 2, 2010).

Certification

We certify that, to the best of our knowledge and belief:

1. The statements of fact contained in this report are true and correct.
2. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are our personal, impartial and unbiased professional analyses, opinions, and conclusions.
3. We have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
4. We have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
5. Our engagement in this assignment was not contingent upon developing or reporting predetermined results.
6. Our compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
7. This appraisal assignment was not based upon a requested minimum valuation, a specific valuation, or the approval of a loan.
8. Our analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice, as well as the requirements of the State of Texas.
9. The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
10. The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
11. As of the date of this report, David Thibodeaux, MAI has completed the continuing education program for Designated Members of the Appraisal Institute.
12. David Thibodeaux, MAI and Ailena DiBenedetto made a personal inspection of the property that is the subject of this report.
13. No one provided significant real property appraisal assistance to the person(s) signing this certification.
14. The Firm operates as an independent economic entity. Definition of Value

Market Value is defined in the Texas Property Tax Code as follows:

(A) exposed for sale in the open market with a reasonable time for the seller to find a purchaser;

(B) both the seller and the purchaser know of all the uses and purposes to which the property is adapted and for which it is capable of being used and of the enforceable restrictions on its use; and

(C) both the seller and purchaser seek to maximize their gains and neither is in a position to take advantage of the exigencies of the other.

(Source: Texas Property Tax Code – 2009, Section 1.04(7).)

Interest Appraised

The appraisal is of the Fee Simple Estate¹ in the subject property. Fee Simple Estate is defined as follows:

- ♦ **Fee Simple Estate:** Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

Appraisal Report

This appraisal is presented in the form of an appraisal report, which is intended to comply with the reporting requirements set forth under Standards Rule 2-2(a) of USPAP. This report incorporates sufficient information regarding the data, reasoning and analysis that were used to develop the opinion of value in accordance with the intended use and user.

Purpose of the Appraisal

The purpose of the appraisal is to develop an opinion of the value of the Fee Simple Estate in the property.

Moody's summarizes the area's economic performance in recent months as follows:

Recent Performance

Austin-Round Rock's economy has accelerated in recent months, and job growth has been twice the national average over the past year. Most major industries have shared in the gains, with construction leading the way. However, federal and state payrolls have been flat, as workers left to take higher-paying jobs in the private sector. The unemployment rate has stabilized below 3%, below the national average, and the labor force is still growing strongly. Homebuilding is strong, though house prices are decelerating.

Market Comparison

The following table illustrates key economic indicators and a comparison of the Austin/Round Rock to the regional grouping as a whole. As indicated, Austin is projected to outperform the National Region Metros in five of eight performance categories shown over the next five years.

Further economic analysis from Moody's is detailed as follows:

High Tech

Expansion of the IT industry will drive growth in 2019. In December, Apple announced that it will invest \$1 billion in a new corporate campus, with an initial goal of hiring up to 5,000 and potentially as many as 15,000. The new jobs will be well-paying positions in engineering, research and development, operations, finance, sales, and customer support. The company's local workforce had already increased by more than 6,000 amid its previous expansion, the Apple Americas Operations Center in 2016, which even then turned Austin into the largest Apple hub outside of Silicon Valley. The new investment has the potential to make the company the biggest private employer in the metro area, surpassing fellow high-tech company Dell.

Another large high-tech company that is expanding is Oracle, which is developing a local hub to support growth in sales of Oracle Cloud. The first phase of its new campus opened in March 2018, and hiring approached 1,000 in subsequent months. In general, the concentration of these big IT companies is a magnet for additional high-tech firms that supply services to them; so is the especially large highly educated labor pool that such companies can tap. Further, the relatively lower costs of living and doing business in Austin than in such competitor locations as Silicon Valley, Seattle and Boston increase the attraction.

Residential Construction

Homebuilding is elevated and will support the overall economy in 2019. Home sales are on a record pace, and new single-family permits are in the vicinity of the peak of the 2006 boom. Multifamily permits are also elevated and close to their 2012 peak. As a result, total permits are at a 30-year high. Demand for workers in the building trades has construction employment up at a double-digit pace year over year. The extra supply on the market has slowed the growth in house prices, though. Whereas the pace was twice the national average, it is now below the national rate. Further, past price increases have reduced affordability in some parts of the metro area, another weight on price appreciation. Still, the inflow of well-paid professionals and population growth triple the national average will keep demand for housing strong over the coming year.

Government

The impact of the public sector on the overall economy will vary by segment. With respect to state hiring, the metro area's status as the state capital will not help. Governor Greg Abbott has worked hard to reduce discretionary spending, most noticeably by putting a freeze on state hiring for most of 2017, resulting in a deep and seemingly permanent drop in payrolls in the latter part of that year. On the other hand, demographics have supported local hiring, much of which is for public schools. The growth in the latter category has been much higher than the national average.

Conclusion

Positive Attributes	Negative Attributes
<ul style="list-style-type: none"> ❖ Stable demand for professional services because of many corporate headquarters. ❖ Favorable migration trends, age structure. ❖ Strong job gains and in-migration boost housing more than expected. ❖ Improving labor force quality attracts more corporation relocations. 	<ul style="list-style-type: none"> ❖ Local economy weighted heavily in tech industry, which is sensitive to the business cycle. ❖ Diminished housing affordability as metro division matures.

The Austin-Round Rock economy will grow at a pace above the national average over the coming year. IT-related industries and housing will lead the way. Longer term, the especially well-educated labor force, the high concentration of technology businesses, the relatively low costs of doing business compared with other high-tech centers, and fast population growth will contribute to an above-average performance.

Neighborhood Analysis

Boundaries

The subject is located in south central Austin with good access to the Central Business District. The subject is specifically located along the east side of South Congress Avenue, south of Riverside Drive.

North	Ladybird Lake
South	Oltorf Street

- ❑ Absorption has kept pace with construction over the past five years.
- ❑ Absorption is projected to slow over the next five years as continued construction means new units added to the market.

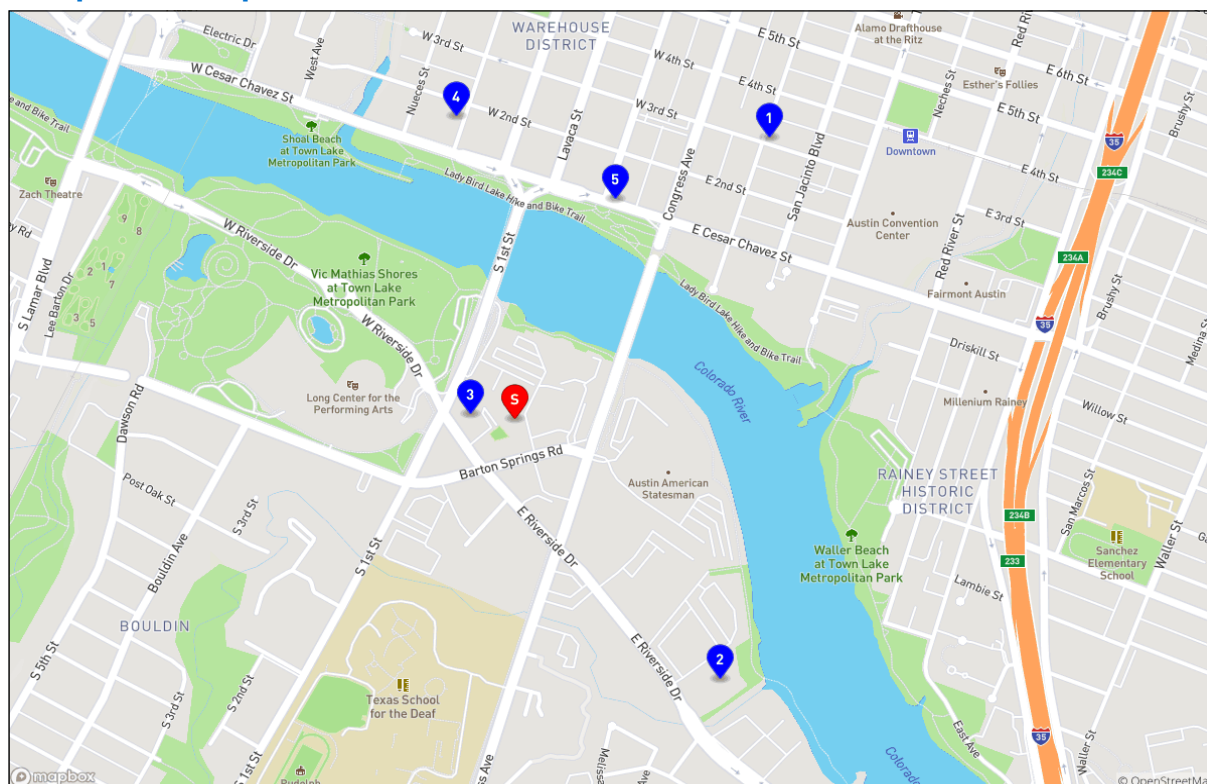

Demand Generators

Major employers in the area of the subject include Oracle, the City of Austin, the State of Texas and the University of Texas at Austin. These employers have headquarters within 5 miles of the property. The Austin also CBD has significant concentrations of major employers and office users in the technical/digital industries. In addition to its strong employment base, the area is easily accessible to surrounding submarkets. Access to employment centers in the CBD and other submarkets is a major demand driver.

Supply & Demand Conclusion

Despite heavy construction in the coming years, the subject submarket vacancy is anticipated to remain below 6.5%. The outlook for the area is positive.

Excess or Surplus Land

Analysis of the site and current use indicates that there is no area of land that is not in use or would be viewed as excess / surplus land.

Easements, Encroachments and Restrictions

We were not provided a current title report to review. Further, there are identified exceptions to title, which include various utility and access easements that are typical for a property of this type. Such exceptions would not appear to have an adverse effect on value. Our valuation assumes no adverse impacts from easements, encroachments, or restrictions, and further assumes that the subject has clear and marketable title.

Environmental Issues

No environmental issues were observed or reported. NKF is not qualified to detect the existence of potentially hazardous issues such as soil contaminants, the presence of abandoned underground tanks, or other below-ground sources of potential site contamination. The existence of such substances may affect the value of the property. For this assignment, we have specifically assumed that any hazardous materials that would cause a loss in value do not affect the subject.

Even though we did not receive a draft environmental report, we walked around the subject site and did not observe any obvious indicators of environmental contamination or adverse property condition issues.

Conclusion

- ❖ Overall, the physical characteristics of the site and the availability of utilities result in functional utility suitable for a variety of uses including those permitted by zoning.
- ❖ The accessibility of the site is considered good.
- ❖ We are not aware of any atypical particular restrictions on development and the subject site appears to be suitable for the existing use.

Conclusion

The subject's base zoning is CS-1, general commercial. However, the subject's site includes a Vertical Mixed-Use overlay that allows for residential uses. Therefore, the subject improvements are a legally conforming use. We are not experts in the interpretation of zoning ordinances. A qualified land use/zoning expert should be engaged if there are any zoning concerns or if a determination of compliance with zoning is required.

Improvements Analysis

The subject is a Class A multifamily-mid/high rise development known as The Catherine, located at 214 Barton Springs Road , Austin, TX 78704. The subject was built in 2015. It includes one multifamily building. The property is viewed as a Class A complex in this market.

Property Condition

Down Units

❌ There are currently no down units.

Property Condition Report

We requested but were not provided with a property condition report. However, the subject improvements are in currently in good condition and we did not observe any obvious signs of deferred maintenance or needed repairs.

Other Property Considerations

Functional Utility

Based on our inspection and consideration of its current and/or future use as well as review of individual floor plans and the overall complex, there do not appear to be any significant items of functional obsolescence.

ADA Compliance

Based on our observation as well as any information provided, no ADA compliance issues were noted. However, the client is advised to obtain review by a qualified professional versed in ADA compliance as we do not have expertise.

Environmental Assessment

We requested, but were not provided a Phase I Environmental Assessment. We did not observe any potentially hazardous materials such as lead paint, asbestos, urea formaldehyde foam insulation, or other potentially hazardous construction materials on or in the improvements. However, it is noted that we did not search for such materials and are not qualified to detect such materials. The existence of said hazardous materials (if any) may have an effect on the value of the property. Therefore, for the purpose of this appraisal, we have specifically assumed that the property is not affected by any hazardous materials that may be present on or in the improvements. We strongly recommend that a qualified environmental engineering firm be retained by the Client prior to making a business decision.

Personal Property

Certain items in apartment projects are sometimes considered personal property, such as furniture, fixtures or equipment. These items include kitchen appliances (stove, refrigerator and dishwasher) in each unit and various items in the common areas including miscellaneous maintenance tools, pool furniture, leasing office furniture, recreational room and clubhouse furniture, and various exercise machines. The apartment units are rented on an unfurnished basis. However, typically personal property is included in the sale of multifamily apartment complexes. The personal property items contained in the subject are not considered to contribute significantly to the overall value of the real estate.

Building Improvements Summary

The improvements are of excellent quality construction and are in excellent condition.

Conclusion

- ❖ Overall, the physical characteristics of the site and the availability of utilities result in functional utility suitable for a variety of uses including those permitted by zoning.
- ❖ The accessibility of the site is considered good.

The local tax assessor's method of valuation is fee simple. Properties are assessed every year for tax purposes. NKF notes that the likelihood of reassessment at a higher value is increased if a sale occurs. Generally, this rarely happens at 100% of the sale price. First, Texas is a non-disclosure state and the sales price is not on any public document and does not have to be divulged. In addition, the owners of the subject property have the ability to protest the subject's valuation in any given tax year regardless of whether or not there is an increase. Also, equal and uniform laws apply whereby a property the appraisal districts recognize assessed value of comparable properties in the area.

Notifications of assessed value as of January 1st are mailed in March and April and the Appraisal District has to be notified of a value protest by May 15th. Tax rates, set by the individual taxing authorities, are not determined until November of that year.

The subject's 2019 preliminary assessed value of \$480,666 per unit, or \$521.81 per SF is above that of Whitley, Skyhouse Austin and AMLI downtown which are all high-rise apartment properties located in downtown Austin. The NKF pro forma assessed value estimate is based on our concluded value of \$124,100,000, and is in line with the tax comparable properties.

*Compiled by NKF***Subject Tax Conclusion**

Gross Receipts/Sales Tax ("Margin Tax") is calculated by multiplying a taxable entity's taxable margin by the tax rate of 1%, or 0.5% for retailers and wholesalers. No tax is owed if the tax due is less than \$1,000 or if the taxable entity's total revenue from its entire business does not exceed \$1,080,000 subject to adjustment based on changes in the consumer price index. For businesses with less than \$20 million of total revenue, a simplified computational formula call the E-Z computation can be used, whereby the tax is imposed at a rate of 0.331% of apportioned total revenue. In the case of the subject, margin tax will apply, as EGI is above the \$1,080,000 threshold.

Highest and Best Use

As Vacant

Legally Permissible

The site is zoned CS-1-V-NP which allows for multifamily use. Based on available data and analysis, no other legal restrictions such as easements or deed covenants are present which would impair the utility of the site. Given that surrounding properties have similar zoning and the future land use plan is focused on similar uses as well, it is unlikely that there would be a change of zoning classification. Further information and analysis about the legal restrictions to the subject property is included in the Site Analysis and Zoning and Legal Restrictions sections of this report.

Physically Possible

The subject site contains 63,598 square feet (1.460 acres), has favorable topography, adequate access, and all necessary utilities to support the range of legally permissible uses. No significant physical limitations were noted. The size of the site is typical for the categories of uses allowed under zoning. In total, the site is physically capable of supporting the legally permissible uses.

Financially Feasible

Of the legally permissible and physically possible uses, multifamily use appears most probable based on observation of surrounding properties as well as the location. These uses are more fully analyzed for their financial feasibility.

The following are relevant points related to the subject's market segment:

- ❑ The subject submarket is reflecting stable occupancies and improving rents.
- ❑ There have been several recent sales of similar properties in this market indicating good investor demand.

Given the underlying market conditions and activity, it appears that a multifamily development would have a sufficient degree of feasibility.

Maximally Productive

The test of maximum productivity is to determine the actual use of the property that results in the highest land value and/or the highest return to the land. It is important to consider the risk of potential uses as a use that may generate the highest returns in cash could also be the riskiest and thus not as likely for a developer to consider. In this case, the maximally productive use is a multifamily development. The associated risk is typical and market conditions appear to be supportive.

Highest and Best Use Conclusion – As Vacant

The highest and best use of the subject as though vacant is the development of a multifamily use.

As Improved

Legally Permissible

The existing multifamily-mid/high rise improvements appear to be legally conforming to zoning.

Physically Possible

The current improvements conform to the physical characteristics of the site. Therefore, continued multifamily use of the property is reasonably probable and appropriate.

Financially Feasible

Financial feasibility focuses on positive and excess returns from the improved property. In this case, the subject is an income producing property and is capable of generating sufficient income to support the continuation of the use. This is demonstrated in the income capitalization approach by the fact that a positive income stream can be generated.

Financial feasibility tends to imply the presence of an income stream. The subject, though, is an owner-occupied property and the real estate itself is not expected to generate an income stream. Financial feasibility for such a property is not demonstrated through income methods but also through market sales activity. As demonstrated in the sales comparison approach section of this report, there is ongoing sales activity for properties like the subject. Therefore, as the market clearly recognizes a need for properties like the subject, the continued use of the improvements in this manner is feasible.

Maximally Productive

The existing multifamily-mid/high rise improvements are legally permissible, physically possible, and financially feasible. The concluded value as though improved exceeds the value of the underlying land and removal of the improvements for redevelopment or substantial conversion to an alternative use is not indicated based on current neighborhood trends. Given no alternatives, the maximally productive use of the property is consistent with the existing multifamily-mid/high rise development.

Highest and Best Use – As Improved

Therefore, the highest and best use of the subject as improved is the existing multifamily-mid/high rise property use. Market and economic conditions are supportive of this continued use.

Most Probable Buyer

The most likely buyer would be an investment partnership, REIT, opportunity fund or pension fund.

Appraisal Methodology

Cost Approach

The cost approach is based on the proposition that the informed purchaser would pay no more for the subject than the cost to produce a substitute property with equivalent utility. This approach is particularly applicable when the property being appraised involves relatively new improvements that represent the highest and best use of the land, or when it is improved with relatively unique or specialized improvements for which there exist few sales or leases of comparable properties.

Sales Comparison Approach

The sales comparison approach utilizes sales of comparable properties, adjusted for differences, to indicate a value for the subject. Valuation is typically accomplished using physical units of comparison such as price per square foot, price per unit, price per floor, etc., or economic units of comparison such as gross rent multiplier. Adjustments are applied to the property units of comparison derived from the comparable sale. The unit of comparison chosen for the subject is then used to yield a total value.

Income Capitalization Approach

The income capitalization approach reflects the subject's income-producing capabilities. This approach is based on the assumption that value is created by the expectation of benefits to be derived in the future. Specifically estimated is the amount an investor would be willing to pay to receive an income stream plus reversion value from a property over a period of time. The two common valuation techniques associated with the income capitalization approach are direct capitalization and the discounted cash flow (DCF) analysis.

Application of Approaches to Value

Approach	Comments
Cost Approach	The Cost Approach is not applicable and is not utilized in this appraisal.
Sales Comparison Approach	The Sales Comparison Approach is applicable and is utilized in this appraisal.
Income Capitalization Approach	The Income Capitalization Approach is applicable and is utilized in this appraisal.

Compiled by NKF

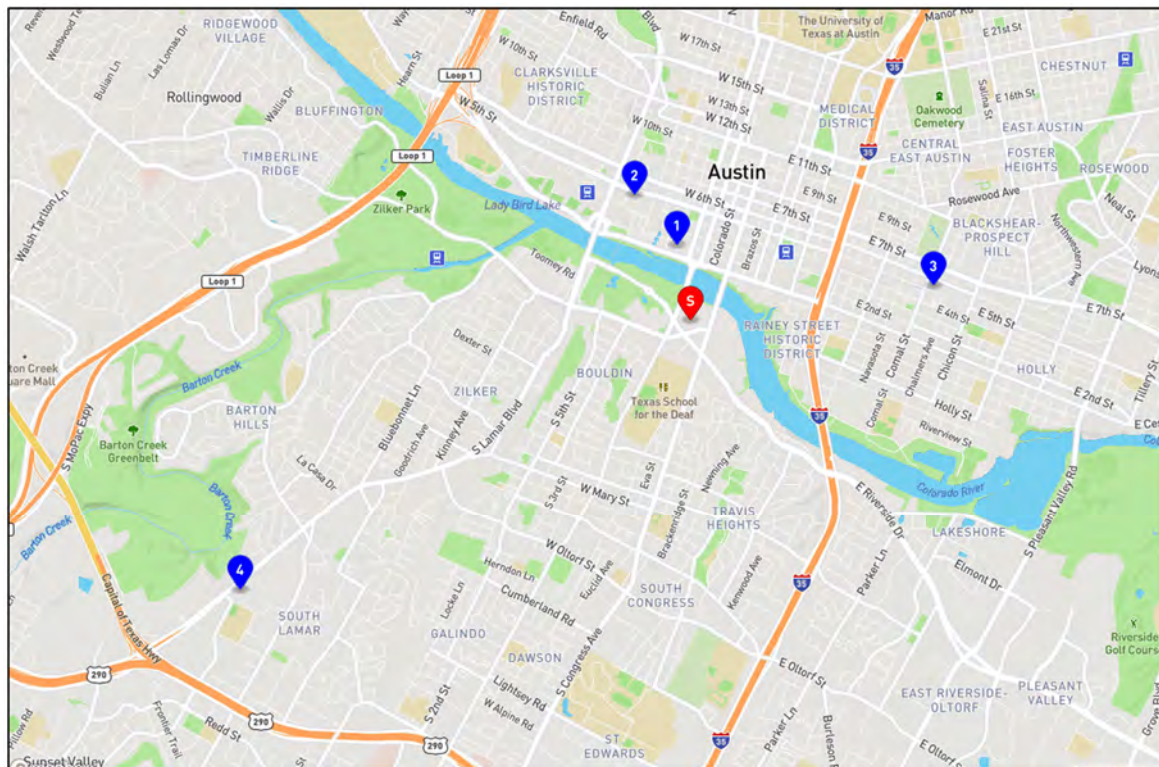

The cost approach was not used because the age of the improvements makes depreciation highly speculative. More significantly, however, market participants considering properties like the subject do not give consideration to the cost approach. The exclusion of this approach is not considered to impact the reliability of the appraisal.

Sales Comparison Approach

The sales comparison approach value is derived by analyzing closed sales, listings, or pending sales of properties that are similar to the subject. The sales comparison approach includes the following steps.

- ❖ Research and verify information on properties in the competitive market that are similar to the subject and that have recently sold, are listed for sale, or are under contract.
- ❖ Select the most relevant units of comparison in the market and develop a comparative analysis.
- ❖ Examine and quantify via adjustments differences between the comparable sales and the subject property using all appropriate elements of comparison.
- ❖ Reconcile the various value indications to a value bracket and then a single value indication.

The unit of comparison applied in this sales comparison analysis is price per unit as it mirrors the primary comparison method used by market participants.

Income Capitalization Approach

The income capitalization approach reflects the subject's income-producing capabilities. This approach is based on the assumption that value is created by the expectation of benefits to be derived in the future. Specifically estimated is the amount an investor would be willing to pay to receive an income stream plus reversion value from a property over a period of time. The two common valuation techniques associated with the income capitalization approach are direct capitalization and the discounted cash flow (DCF) analysis.

The direct capitalization method is normally more appropriate for properties with relatively stable operating histories and expectations. The DCF analysis is more appropriate for investment properties with multiple or long-term leases, particularly leases with cancellation clauses or renewal options, and especially in volatile markets.

In this analysis, we utilized direct capitalization as this is the method most commonly used by investors.

Repairs and maintenance includes expenditures to repair and maintain mechanical systems and structural components, encompassing payroll and contract costs, as appropriate. Excluded are alterations and major replacements, which are considered capital costs rather than periodic expenses. The historical data is well above the range of the comparable properties. Therefore, we have relied on the comparable properties to determine market-based repairs and maintenance expense.

Income Capitalization Approach Conclusion

Income Capitalization Approach - Indicated Value

The sole method used is direct capitalization. A discounted cash flow analysis is not used because typical investors in this property type do not evaluate properties on this basis.

Reconciliation of Value

The values indicated by our analyses are as follows:

Market Value Indications	
Market Value Premise As of Date:	As Is December 31, 2018
Cost Approach:	Not Used
Sales Comparison Approach:	\$123,500,000
Income Capitalization Approach:	\$124,100,000
Market Value Conclusion	\$124,100,000
<i>Compiled by NKF</i>	

Cost Approach

The Cost Approach has best applicability for properties with new or nearly new improvements. It is a summation approach in that the underlying land value is added to the depreciated replacement cost for the indicated value. In this case, the cost approach was not utilized due to the age of the improvements which results in significant depreciation thereby reducing the reliability of this approach.

Sales Comparison Approach

The Sales Comparison Approach is focused on comparing the subject to sale and other market transactions with the aim to develop an indication of value that is founded on the theory of substitution. Basically, the intention is to determine value through considering the prices of properties which would be a substitute property to the subject. In this case, a selection of reasonably similar sales were obtained and the adjustment process was well founded by reasoning and direct evidence. Although this analysis is considered to be well founded and reliable, the subject property is an income producing property and the sales comparison approach, like the cost approach, is limited in its ability to directly consider the income levels of the subject and the sales. Accordingly, secondary weight is given to the sales comparison approach.

Income Capitalization Approach

The subject property is an apartment property. It is distinctly an income producing property and this approach is specifically designed to address the value of such a property. Only direct capitalization analyses was developed. Market rent was well established by reasonably similar lease data. The property has a stable history and both income and expense estimates track with historical trends. Capitalization rates were developed from a number of sources including the sales used in the sales comparison approach. In total, the income capitalization approach is

considered to be most applicable to the subject and most reliable. This approach is given greatest weight for that reason.

Extraordinary Assumptions and Hypothetical Conditions

An extraordinary assumption is defined in USPAP as an assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. The value conclusions are subject to the following extraordinary assumptions that may affect the assignment results.

1. The retrospective 'as is' date of value assumes that the physical condition of the subject as of the date of value, December 31, 2018, is similar to the date of observation June, 5, 2019.

The use of this extraordinary assumption might have affected assignment results.

A hypothetical condition is defined in USPAP as a condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. The value conclusions are based on the following hypothetical conditions that may affect the assignment results.

1. None

Compiled by NKF

Exposure Time

Exposure time is the estimated length of time the subject property would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. It is a retrospective estimate based on an analysis of past events assuming a competitive and open market.

The following is national investor survey data which is one source for the underlying data to this conclusion.

Investor Surveys - Marketing Times

Source	Period	Low	High	Average
NKF V&A Mkt Survey - National Multifamily - Suburban A	Q4 2018	N/A	N/A	4.8
NKF V&A Mkt Survey - National Multifamily - CBD A	Q4 2018	N/A	N/A	4.7
Situs RERC - National Apartment - Overall	Q3 2018	N/A	N/A	4.2
PwC - National Apartment - Overall	Q1 2019	1.0	9.0	3.8

Compiled by NKF

Recent sales transaction data for similar properties, supply and demand characteristics for the local multifamily-mid/high rise market, and the opinions of local market participants were reviewed and analyzed. Based on this data and analysis, it is our opinion that the probable exposure time for the subject at the concluded market value is 0 months.

Marketing Time

Marketing time is an opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value level during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal. As no significant changes in market conditions are foreseen in the near term, it is our opinion that a reasonable marketing period for the subject is likely to be the same as the exposure time. Accordingly, we estimate the subject's marketing period at 0 months.

Assumptions and Limiting Conditions

The Appraisal contained in this Report (herein “Report”) is subject to the following assumptions and limiting conditions:

1. Unless otherwise stated in this report, title to the property which is the subject of this report (herein “Property”) is assumed to be good and marketable and free and clear of all liens and encumbrances and that there are no recorded or unrecorded matters or exceptions to title that would adversely affect marketability or value. No responsibility is assumed for the legal description, zoning, condition of title or any matters which are legal in nature or otherwise require expertise other than that of a professional real estate appraiser. This report shall not constitute a survey of the Property.
2. Unless otherwise stated in this report, it is assumed: that the improvements on the Property are structurally sound, seismically safe and code conforming; that all building systems (mechanical/electrical, HVAC, elevator, plumbing, etc.) are in good working order with no major deferred maintenance or repair required; that the roof and exterior are in good condition and free from intrusion by the elements; that the Property and improvements conform to all applicable local, state, and federal laws, codes, ordinances and regulations including environmental laws and regulations. No responsibility is assumed for soil or subsoil conditions or engineering or structural matters. The Property is appraised assuming that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimates contained in this report is based, unless otherwise stated. The physical condition of the Property reflected in this report is solely based on a visual inspection as typically conducted by a professional appraiser not someone with engineering expertise. Responsible ownership and competent property management are assumed.
3. Unless otherwise stated in this report, this report did not take into consideration the existence of asbestos, PCB transformers or other toxic, hazardous, or contaminated substances or underground storage tanks, or the cost of encapsulation, removal or remediation thereof. Real estate appraisers are not qualified to detect such substances. The presence of substances such as asbestos, urea formaldehyde foam insulation, contaminated groundwater or other potentially hazardous materials and substances may adversely affect the value of the Property. Unless otherwise stated in this report, the opinion of value is predicated on the assumption that there is no such material or substances at, on or in the Property.
4. All statements of fact contained in this report as a basis of the analyses, opinions, and conclusions herein are true and correct to the best of the appraiser's actual knowledge and belief. The appraiser is entitled to and relies upon the accuracy of information and material furnished by the owner of the Property or owner's representatives and on information and data provided by sources upon which members of the appraisal profession typically rely and that are deemed to be reliable by such members. Such information and data obtained from third party sources are assumed to be reliable and have not been independently verified. No warranty is made as to the accuracy of any of such information and data. Any material error in any of the said information or data could have a

substantial impact on the conclusions of this Report. The appraiser reserves the right to amend conclusions reported if made aware of any such error.

5. The opinion of value stated in this report is only as of the date of value stated in this report. An appraisal is inherently subjective and the conclusions stated apply only as of said date of value, and no representation is made as to the effect of subsequent events. This report speaks only as of the date hereof.
6. Any projected cash flows included in the analysis are forecasts of estimated future operating characteristics and are predicated on the information and assumptions contained within this report. Any projections of income, expenses and economic conditions utilized in this report are not predictions of the future. Rather, they are estimates of market expectations of future income and expenses. The achievement of any financial projections will be affected by fluctuating economic conditions and is dependent upon other future occurrences that cannot be assured. Actual results may vary from the projections considered herein. There is no warranty or assurances that these forecasts will occur. Projections may be affected by circumstances beyond anyone's knowledge or control. Any income and expense estimates contained in this report are used only for the purpose of estimating value and do not constitute predictions of future operating results.
7. The analyses contained in this report may necessarily incorporate numerous estimates and assumptions regarding Property performance, general and local business and economic conditions, the absence of material changes in the competitive environment and other matters. Some estimates or assumptions, however, inevitably will not materialize, and unanticipated events and circumstances may occur; therefore, actual results achieved during the period covered by the analysis will vary from estimates, and the variations may be material.
8. All prospective value opinions presented in this report are estimates and forecasts which are prospective in nature and are subject to considerable risk and uncertainty. In addition to the contingencies noted in the preceding paragraphs, several events may occur that could substantially alter the outcome of the estimates such as, but not limited to changes in the economy, interest rates, capitalization rates, behavior of consumers, investors and lenders, fire and other physical destruction, changes in title or conveyances of easements and deed restrictions, etc. In making prospective estimates and forecasts, it is assumed that conditions reasonably foreseeable at the present time are consistent or similar with the future.
9. The allocations of value for land and improvements must not be used in conjunction with any other appraisal and are invalid if so used. This report shall be considered only in its entirety. No part of this report shall be utilized separately or out of context.
10. Neither all nor any part of the contents of this report (especially any conclusions as to value, the identity of the appraiser, or any reference to the Appraisal Institute) shall be disseminated through advertising media, public relations media, news media or any other means of communication (including without limitation prospectuses, private offering memoranda and other offering material provided to prospective investors) without the prior written consent of the Firm. Possession of this report, or a copy hereof, does not carry with it the right of publication.
11. Client and any other Intended User identified herein should consider this report and the opinion of value contained herein as only one factor together with its own independent considerations and

underwriting guidelines in making any decision or investment or taking any action regarding the Property. Client agrees that Firm shall not be responsible in any way for any decision of Client or any Intended User related to the Property or for the advice or services provided by any other advisors or contractors. The use of this report and the appraisal contained herein by anyone other than an Intended User identified herein, or for a use other than the Intended Use identified herein, is strictly prohibited. No party other than an Intended User identified herein may rely on this report and the appraisal contained herein.

12. Unless otherwise stated in the agreement to prepare this report, the appraiser shall not be required to participate in or prepare for or attend any judicial, arbitration, or administrative proceedings.
13. The Americans with Disabilities Act (ADA) became effective January 26, 1992. No survey or analysis of the Property has been made in connection with this report to determine whether the physical aspects of the improvements meet the ADA accessibility guidelines. No expertise in ADA issues is claimed, and the report renders no opinion regarding the Property's compliance with ADA regulations. Inasmuch as compliance matches each owner's financial ability with the cost to cure the non-conforming physical characteristics of a property, a specific study of both the owner's financial ability and the cost to cure any deficiencies would be needed for the Department of Justice to determine compliance.
14. Acceptance and/or use of this report constitutes full acceptance of these Assumptions and Limiting Conditions and any others contained in this report, including any Extraordinary Assumptions and Hypothetical Conditions, and is subject to the terms and conditions contained in the agreement to prepare this report and full acceptance of any limitation of liability or claims contained therein.

Addendum A

Glossary of Terms

The following definitions are derived from The Dictionary of Real Estate Appraisal, 6th ed. (Chicago: Appraisal Institute, 2015).

- ◆ **Absorption Period:** The actual or expected period required from the time a property, group of properties, or commodity is initially offered for lease, purchase, or use by its eventual users until all portions have been sold or stabilized occupancy has been achieved.
- ◆ **Absorption Rate:** 1) Broadly, the rate at which vacant space in a property or group of properties for sale or lease has been or is expected to be successfully sold or leased over a specified period of time. 2) In subdivision analysis, the rate of sales of lots or units in a subdivision.
- ◆ **Ad Valorem Tax:** A tax levied in proportion to the value of the thing(s) being taxed. Exclusive of exemptions, use-value assessment provisions, and the like, the property tax is an ad valorem tax. (International Association of Assessing Officers [IAAO])
- ◆ **Assessed Value:** The value of a property according to the tax rolls in ad valorem taxation; may be higher or lower than market value, or based on an assessment ratio that is a percentage of market value.
- ◆ **Cash Equivalency:** An analytical process in which the sale price of a transaction with nonmarket financing or financing with unusual conditions or incentives is converted into a price expressed in terms of cash or its equivalent.
- ◆ **Contract Rent:** The actual rental income specified in a lease.
- ◆ **Disposition Value:** The most probable price that a specified interest in property should bring under the following conditions: 1) Consummation of a sale within a specified time, which is shorter than the typical exposure time for such a property in that market. 2) The property is subjected to market conditions prevailing as of the date of valuation. 3) Both the buyer and seller are acting prudently and knowledgeably. 4) The seller is under compulsion to sell. 5) The buyer is typically motivated. 6) Both parties are acting in what they consider to be their best interests. 7) An adequate marketing effort will be made during the exposure time. 8) Payment will be made in cash in US dollars (or the local currency) or in terms of financial arrangements comparable thereto. 9) The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. This definition can also be modified to provide for valuation with specified financing terms.
- ◆ **Effective Rent:** Total base rent, or minimum rent stipulated in a lease, over the specified lease term minus rent concessions; the rent that is effectively paid by a tenant net of financial concessions provided by a landlord.
- ◆ **Excess Land:** Land that is not needed to serve or support the existing use. The highest and best use of the excess land may or may not be the same as the highest and best use of the improved parcel. Excess land has the potential to be sold separately and is valued separately. See also *surplus land*.

- ◆ **Excess Rent:** The amount by which contract rent exceeds market rent at the time of the appraisal; created by a lease favorable to the landlord (lessor) and may reflect unusual management, unknowledgeable or unusually motivated parties, a lease execution in an earlier, stronger rental market, or an agreement of the parties.
- ◆ **Exposure Time:** 1) The time a property remains on the market. 2) [The] estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.
- ◆ **Extraordinary Assumption:** An assumption, directly related to a specific assignment, as of the effective date of the assignment results, which, if found to be false, could alter the appraiser's opinions or conclusions. See also **hypothetical condition**.
- ◆ **Fee Simple Estate:** Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.
- ◆ **Floor Area Ratio (FAR):** The relationship between the above-ground floor area of a building, as described by the zoning or building code, and the area of the plot on which it stands; in planning and zoning, often expressed as a decimal, e.g., a ratio of 2.0 indicates that the permissible floor area of a building is twice the total land area.
- ◆ **Frictional Vacancy:** The amount of vacant space needed in a market for its orderly operation. Frictional vacancy allows for move-ins and move-outs.
- ◆ **Full Service Lease:** See **gross lease**.
- ◆ **General Vacancy:** A method of calculating any remaining vacancy and collection loss considerations when using discounted cash flow (DCF) analysis, where turnover vacancy has been used as part of the income estimate. The combined effects of turnover vacancy and general vacancy relate to total vacancy and collection loss.
- ◆ **Going-Concern Premise:** One of the premises under which the total assets of a business can be valued; the assumption that a company is expected to continue operating well into the future (usually indefinitely).
- ◆ **Going Concern Value:** An outdated label for the market value of all the tangible and intangible assets of an established and operating business with an indefinite life, as if sold in aggregate; more accurately termed the market value of the going concern or market value of the total assets of the business.
- ◆ **Gross Building Area (GBA):** 1) Total floor area of a building, excluding unenclosed areas, measured from the exterior of the walls of the above grade area. This includes mezzanines and basements if and when typically included in the market area of the type of property involved. 2) Gross leasable area plus all common areas. 3) For residential space, the total area of all floor levels measured from the exterior of the walls and including the superstructure and substructure basement; typically does not include garage space.

- ◆ **Gross Lease:** A lease in which the landlord receives stipulated rent and is obligated to pay all of the property's operating and fixed expenses; also called full-service lease.
- ◆ **Hypothetical Condition:** 1) A condition that is presumed to be true when it is known to be false. (Appraisal Institute: The Standards of Valuation Practice [SVP]) 2) A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. See also **extraordinary assumption**.
- ◆ **Intended Users:** 1) The party or parties the valuer intends will use the report. (SVP) 2) The client and any other party as identified, by name or type, as users of the appraisal or appraisal review report by the appraiser on the basis of communication with the client at the time of the assignment. (USPAP, 2016-2017 ed.)
- ◆ **Investment Value:** 1) The value of a property to a particular investor or class of investors based on the investor's specific requirements. Investment value may be different from market value because it depends on a set of investment criteria that are not necessarily typical of the market. 2) The value of an asset to the owner or a prospective owner for individual investment or operational objectives. (International Valuation Standards [IVS])
- ◆ **Land-to-Building Ratio:** The proportion of land area to gross building area; one of the factors determining comparability of properties.
- ◆ **Lease:** A contract in which the rights to use and occupy land, space, or structures are transferred by the owner to another for a specified period of time in return for a specified rent.
- ◆ **Leased Fee Interest:** The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversionary right when the lease expires.
- ◆ **Leasehold Interest:** The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease.
- ◆ **Lessee:** One who has the right to occupancy and use of the property of another for a period of time according to a lease agreement.
- ◆ **Lessor:** One who conveys the rights of occupancy and use to others under a lease agreement.
- ◆ **Liquidation Value:** The most probable price that a specified interest in property should bring under the following conditions: 1) Consummation of a sale within a short time period. 2) The property is subjected to market conditions prevailing as of the date of valuation. 3) Both the buyer and seller are acting prudently and knowledgeably. 4) The seller is under extreme compulsion to sell. 5) The buyer is typically motivated. 6) Both parties are acting in what they consider to be their best interests. 7) A normal marketing effort is not possible due to the brief exposure time. 8) Payment will be made in cash in US dollars (or the local currency) or in terms of financial arrangements comparable thereto. 9) The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone

associated with the sale. This definition can also be modified to provide for valuation with specified financing terms.

- ◆ **Market Rent:** The most probable rent that a property should bring in a competitive and open market reflecting the conditions and restrictions of a specified lease agreement, including the rental adjustment and revaluation, permitted uses, use restrictions, expense obligations, term, concessions, renewal and purchase options, and tenant improvements (TIs).
- ◆ **Market Value:** A type of value that is the major focus of most real property appraisal assignments. Both economic and legal definitions of market value have been developed and refined, such as the following. 1) The most widely accepted components of market value are incorporated in the following definition: The most probable price, as of a specified date, in cash, or in terms equivalent to cash, or in other precisely revealed terms, for which the specified property rights should sell after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and for self-interest, and assuming that neither is under undue duress. 2) Market value is described, not defined, in the Uniform Standards of Professional Appraisal Practice (USPAP) as follows: A type of value, stated as an opinion, that presumes the transfer of a property (i.e., a right of ownership or a bundle of such rights), as of a certain date, under specific conditions set forth in the definition of the term identified by the appraiser as applicable in an appraisal. ²
- ◆ **Market Value of the Going Concern:** The market value of an established and operating business including the real property, personal property, financial assets, and the intangible assets of the business.
- ◆ **Marketing Time:** An opinion of the amount of time it might take to sell a real or personal property interest at the concluded market value level during the period immediately after the effective date of an appraisal. Marketing time differs from exposure time, which is always presumed to precede the effective date of an appraisal.
- ◆ **Modified Gross Lease:** A lease in which the landlord receives stipulated rent and is obligated to pay some, but not all, of the property's operating and fixed expenses. Since assignment of expenses varies among modified gross leases, expense responsibility must always be specified. In some markets, a modified gross lease may be called a double net lease, net net lease, partial net lease, or semi-gross lease.
- ◆ **Net Lease:** A lease in which the landlord passes on all expenses to the tenant. See also **gross lease;** **modified gross lease.**
- ◆ **Net Net Net Lease:** An alternative term for a type of net lease. In some markets, a net net net lease is defined as a lease in which the tenant assumes all expenses (fixed and variable) of operating a property except that the landlord is responsible for structural maintenance, building reserves, and management; also called NNN lease, triple net lease, or fully net lease.

² The actual definition of value used for this appraisal is contained within the body of the report. The definition of market value given above is general in viewpoint and is only provided for amplification.

- ◆ **Occupancy Rate:** 1) The relationship or ratio between the potential income from the currently rented units in a property and the income that would be received if all the units were occupied. 2) The ratio of occupied space to total rentable space in a building.
- ◆ **Overage Rent:** The percentage rent paid over and above the guaranteed minimum rent or base rent; calculated as a percentage of sales in excess of a specified breakpoint sales volume.
- ◆ **Percentage Rent:** Rental income received in accordance with the terms of a percentage lease; typically derived from retail store and restaurant tenants and based on a certain percentage of their gross sales.
- ◆ **Prospective Opinion of Value:** A value opinion effective as of a specified future date. The term does not define a type of value. Instead, it identifies a value opinion as being effective at some specific future date. An opinion of value as of a prospective date is frequently sought in connection with projects that are proposed, under construction, or under conversion to a new use, or those that have not yet achieved sellout or a stabilized level of long-term occupancy.
- ◆ **Rentable Area:** For office or retail buildings, the tenant's pro rata portion of the entire office floor, excluding elements of the building that penetrate through the floor to the areas below. The rentable area of a floor is computed by measuring to the inside finished surface of the dominant portion of the permanent building walls, excluding any major vertical penetrations of the floor. Alternatively, the amount of space on which the rent is based; calculated according to local practice.
- ◆ **Retrospective Value Opinion:** A value opinion effective as of a specified historical date. The term retrospective does not define a type of value. Instead, it identifies a value opinion as being effective at some specific prior date. Value as of a historical date is frequently sought in connection with property tax appeals, damage models, lease renegotiation, deficiency judgments, estate tax, and condemnation. Inclusion of the type of value with this term is appropriate, e.g., "retrospective market value opinion."
- ◆ **Shell Rent:** The typical rent paid for retail, office, or industrial tenant space based on minimal "shell" interior finishes (called vanilla finish or white wall finish in some areas). Usually the landlord delivers the main building shell space or some minimum level of interior build-out, and the tenant completes the interior finish, which can include wall, ceiling, and floor finishes, mechanical systems, interior electricity, and plumbing. Typically these are long-term leases with tenants paying all or most property expenses.
- ◆ **Surplus Land:** Land that is not currently needed to support the existing use but cannot be separated from the property and sold off for another use. Surplus land does not have an independent highest and best use and may or may not contribute value to the improved parcel. See also **excess land**.
- ◆ **Turnover Vacancy:** A method of calculating vacancy allowance that is estimated or considered as part of the potential income estimate when using discounted cash flow (DCF) analysis. As units or suites turn over and are available for re-leasing, the periodic vacancy time frame (vacancy window) to release the space is considered.

- ♦ **Usable Area:** 1) For office buildings, the actual occupiable area of a floor or an office space; computed by measuring from the finished surface of the office side of corridor and other permanent walls, to the center of partitions that separate the office from adjoining usable areas, and to the inside finished surface of the dominant portion of the permanent outer building walls. Sometimes called net building area or net floor area. See also floor area. 2) The area that is actually used by the tenants measured from the inside of the exterior walls to the inside of walls separating the space from hallways and common areas.
- ♦ **Use Value:** The value of a property assuming a specific use, which may or may not be the property's highest and best use on the effective date of the appraisal. Use value may or may not be equal to market value but is different conceptually. See also **value in use**.
- ♦ **Value In Use:** The value of a property assuming a specific use, which may or may not be the property's highest and best use on the effective date of the appraisal. Value in use may or may not be equal to market value but is different conceptually. See also **use value**.
- ♦ **Value Indication:** A valuer's conclusion of value resulting from the application of an approach to value, e.g., the value indication by the sales comparison approach.

ADDITIONAL HOURLY FEES:	Should court time and preparation be required, it will be billed at \$300.00/hour plus expenses. If any source quoted within the analysis report are subject to questions and/or subpoena, there will be an additional fee of \$300.00/hour – plus associated expenses.
RETAINER:	\$4,000.00 with the return of this letter signed by the Client.
REPORT DELIVERABLES:	The appraisal, draft and/or final, shall be delivered in electronic format (typically pdf). One original hard copy of the final appraisal will be provided to Client upon request.
COMMENCEMENT AND DELIVERY DATE:	Delivery is as follows: Final appraisal report: three (3) weeks The appraisal process will commence upon receipt by the undersigned of this proposal letter signed by Client or by a representative of the Client together with any required retainer and the requested information and materials identified in the

attached Schedule "B" Property Information List, and will conclude upon delivery of the final appraisal report, unless terminated sooner by the Firm or Client or as provided herein.

REPORT TYPE:	Appraisal Report
VALUATION PREMISE:	Market Value pursuant to Texas Property Tax Code
INTEREST IN THE PROPERTY APPRAISED:	Fee Simple Estate
DATE(S) OF VALUE:	Retrospective as of: December 31st, 2018
INTENDED USER(S):	Intended users of the appraisal include only Michel, Gray, Rogers, & Brewer, LLP, and no other party is permitted to use or rely on the appraisal ("Intended Users"). The identification of Intended User(s) of the appraisal is to determine the type and extent of research, analysis and reporting appropriate for the assignment. Designation of a party other than Client as an Intended User is not intended to confer upon such party any rights under this Agreement.
INTENDED USE:	The intended use of the appraisal is solely for potential ad valorem real estate tax litigation ("Intended Use") and no other use.
RELIANCE LANGUAGE:	None
GUIDELINES:	The analyses, opinions and conclusions are to be developed based on, and the appraisal will be prepared in conformance with the Uniform Standards of Professional Appraisal Practice (USPAP) as published by the Appraisal Foundation.
SCOPE OF WORK:	The appraiser will use and properly apply all applicable and appropriate approaches to value sufficient to produce credible assignment results. The scope of the analysis will be appropriate for the appraisal problem.
ASSUMPTIONS/ LIMITING CONDITIONS:	The appraisal will be subject to Firm's standard "Assumptions and Limiting Conditions", which will be incorporated into the appraisal report. In addition, the appraisal may be subject to, and the appraisal report may contain, Extraordinary Assumptions and Hypothetical Conditions.

ACCEPTANCE: This shall constitute a binding agreement only if countersigned by the Client, or by an officer, director or other representative of Client who, by signing and accepting this proposal, represents and warrants that he/she is authorized by Client to do so.

CHANGES TO THE AGREEMENT: Any significant changes to the assignment as outlined in this proposal letter, such as the identity of the Client, intended users, or intended use, shall necessitate the preparation and execution by both parties of a new proposal letter.

CANCELLATION OF ASSIGNMENT: Client may cancel this Agreement at any time prior to the Firm's delivery of the appraisal upon written notification to the Firm. Client shall pay Firm for all work completed on the assignment prior to Firm's receipt of such written cancellation notice, unless otherwise agreed upon by Firm and Client in writing. The Firm may withdraw without penalty or liability from the assignment(s) contemplated by the Agreement before completion or reporting if the Firm determines, in the Firm's sole discretion, that incomplete information was provided to the Firm prior to the engagement, that Client or other parties have not or cannot provide documentation or information necessary to the Firm's analysis or reporting, that conditions of the Property render the original scope of work inappropriate, that a conflict of interest has arisen, or that Client has not complied with its payment obligations under this Agreement. The Firm shall notify Client of such withdrawal in writing.

NO THIRD PARTY BENEFICIARIES: Nothing in the Agreement shall create a contractual relationship or any legal duty between Firm or Client and any third party, nor any cause of action, right, or claim in favor of any third party and against Firm or Client. In addition, this Agreement is not intended to, and shall not be construed to, render any person or entity a third party beneficiary of this Agreement. Client acknowledges and agrees that the appraisal report shall reflect the foregoing. In addition, the appraisal report shall state that no party other than an "Intended User" identified in the Agreement is entitled to rely upon the appraisal.

This Agreement may be rescinded by the Firm unless signed and returned to the undersigned within 10 days from the date hereof.

If this Agreement correctly sets forth the Client's understanding of the services to be rendered, and if the terms are satisfactory, please execute and return the Agreement together with any required retainer.

Thank you and we look forward to working on this assignment.

TERMS AND CONDITIONS

ATTACHED TO AND A PART OF THE ENGAGEMENT LETTER DATED MAY 24, 2019 TO PROVIDE APPRAISAL SERVICES FOR MICHEL, GRAY, ROGERS, & BREWER, LLP

1. These Terms and Conditions are attached to and incorporated into the above referenced engagement letter as though fully set forth in full therein, and together form the "Agreement." Capitalized terms if not defined herein shall have the same meaning as defined in the Agreement.
2. With respect to any appraisal report, use of or reliance on the appraisal by any party, regardless of whether the use or reliance is authorized or known by the Firm, constitutes acceptance of these Terms and Conditions as well as acceptance of all other appraisal statements, limiting conditions and assumptions stated in the Agreement and appraisal report.
3. It is assumed that there are no matters affecting the Property that would require the expertise of other professionals, such as engineers or an environmental consultant, for Firm to provide the appraisal. If such additional expertise is required, it shall be provided by other parties retained by Client at Client's sole cost and expense.
4. Client acknowledges that the Firm is being retained as an independent contractor to provide the services described herein and nothing in this Agreement shall be deemed to create any other relationship between Firm and Client, including but not limited to an agency relationship. The parties neither intend nor have any expectation that any such relationship will arise as a matter of law or as a result of this Agreement. This assignment shall be deemed concluded and the services hereunder completed upon delivery of the appraisal described herein to Client.
5. All statements of fact contained in the appraisal report as a basis of the appraiser's analyses, opinions, and conclusions will be true and correct to the best of the appraiser's actual knowledge and belief. The appraiser is entitled to, and shall rely upon the accuracy of information and material furnished to the Firm by Client. Appraiser is also entitled to, and shall, rely on information provided by sources upon which members of the appraisal profession typically rely and that are deemed to be reliable by members of that profession without independent verification.
6. The Firm and the appraiser shall have no responsibility for legal matters, or questions or issues involving survey or title, soil or subsoil conditions, engineering, zoning, buildability, environmental contamination, structural matters, construction defects, material or methodology, or other similar technical matters with regarding the Property. Furthermore, the appraisal will not constitute a survey of the Property.
7. The appraisal and the data and information gathered in its preparation (other than the confidential data and information provided by Client) is and will remain, the property of the Firm. The Firm shall not violate the confidential nature of the appraiser-client relationship by improperly disclosing any confidential information furnished by Client to the Firm. Notwithstanding the foregoing, the Firm and the appraiser are authorized by Client to disclose all or any portion of the appraisal and appraisal report and the related data and information, including confidential data and information provided by Client, to appropriate representatives of the Appraisal Institute if such disclosure is required to comply with the

Standards, Bylaws and Regulations of the Appraisal Institute, as well as, such disclosure as required by law and regulations, including compliance with a subpoena and licensing authority regulatory inquiries. The Firm is also authorized to include both confidential and non-confidential data assembled in the course of preparing the appraisal and which may be incorporated into the appraisal report in a database controlled by the Firm for the aggregation of such data and information to produce analytics and other metrics or products.

8. Unless specifically noted in the appraisal report, the appraisal will not take into consideration the possibility or probability of the existence of asbestos, PCB transformers, other toxic, hazardous, or contaminated substances and/or underground storage tanks (hazardous material) at on or in the Property, or the cost of encapsulation, removal or remediation thereof.
9. Client shall indemnify, defend (by counsel to be selected by Firm), protect, and hold Firm and Firm's appraisers, agents, employees, affiliates, representatives, successors and assigns (each a "**Firm Party**"), free and harmless from any and all claims, liabilities, losses, penalties, fines, forfeitures, amounts paid in settlement, judgments, and all reasonable attorneys' fees and related litigation costs, fees and expenses incurred by the any of such indemnitees, which result from (i) any failure by Client or Client's agents or representatives to provide Firm with complete and accurate information regarding the Property; (ii) any material breach by Client of the provisions of the Agreement; (iii) if delivery of the appraisal to a third party is permitted by the Firm, Client providing an incomplete copy of the appraisal to such third party; or (iv) arising from Client or Client's agents or representatives providing a copy of the appraisal to a party not authorized by the Firm to receive such copy.
10. In preparing the appraisal, it is possible that the appraiser will discover conflicting information. In that event, appraiser will utilize information and data considered to be the most authoritative and for critical information will document the source. Information and data referred to may include, but is not limited to, legal descriptions; physical street addresses; assessor parcel numbers; property history; dimensions and areas of the site/land; dimensions and areas of the building improvements; physical unit counts; rent rolls; leases; lease abstracts; income and expense data; and any other related data. Any material discrepancy and/or error in any of the above data could have a substantial impact on the conclusions reported, and the Firm therefore reserves the right to amend conclusions reported if the Firm is made aware of any such discrepancy and/or error.
11. The appraisal may not be used, included or referenced, in whole or in part, in any offering or other materials without the prior written consent of the Firm, which consent may be conditioned upon the receipt by the Firm of an indemnity agreement, in form and content, satisfactory to Firm and provided by an indemnitor satisfactory to Firm. Client agrees to pay the fees of the Firm's legal counsel for review of any materials which is the subject of the requested consent. Except as agreed by the Firm expressly in writing, the Firm disclaims liability to any party other than Client.
12. The Firm shall not provide a copy of the appraisal to, or disclose the results of the appraisal to, any party other than Client, unless Client authorizes same, except as provided in the Confidentiality Section of the ETHICS RULE of the Uniform Standards of Professional Appraisal Practice (USPAP) or as otherwise required by law or regulations.
13. Client and any other identified Intended User should consider the appraisal as only one factor together with its own independent considerations and underwriting guidelines in making any decision or

investment or taking any action regarding the Property. Client agrees that Firm shall not be responsible in any way for any decision of Client or any Intended User related to the Property or for the advice or services provided by any other advisors or contractors.

14. Unless otherwise stated in this Agreement, Client agrees that the services pursuant to this Agreement shall not include participation in or preparation for, or attendance at, any legal, judicial, administrative, or arbitration proceeding relating to this assignment. In the event the Firm or any Firm Party is required, whether through the service of a subpoena or otherwise, to produce documents or participate in or prepare for any discovery, testimony or attendance, relating to the appraisal or this assignment, where the Firm or Firm Party is not a party to the action or proceedings involved, Client agrees to reimburse expenses incurred by the Firm or Firm Party, including attorney's fees, in responding to such subpoena or other legal process and compensate the Firm therefor based upon the appraiser's prevailing hourly or daily rate for providing services as an expert consultant or witness.
15. Except as expressly provided herein, Firm makes no representations or warranties to Client or to any other person or entity with respect to the appraisal and the services to be provided by Firm under this Agreement. To the maximum extent permitted under applicable law, in no event will the Firm or any Firm Party be liable to Client or any third party (regardless of whether such party's claimed use or reliance on the appraisal was authorized by the Firm or a Firm Party) for any indirect, special, exemplary, incidental, or consequential damages (including loss of profits) arising from or relating to this Agreement or the appraisal, even if such party knew or should have known of the possibility of, or could reasonably have prevented, such damages. In no event shall the total liability of the Firm or any Firm Party to Client or any third party (regardless of whether such party's claimed use or reliance on the appraisal was authorized by the Firm or a Firm Party) arising from or relating to this Agreement or the appraisal, whether based on tort, contract, or any other legal theory, exceed the amount of fees paid to the Firm for the appraisal and the services described herein. Legal claims or causes of action relating to the appraisal are not assignable, except: (i) as the result of a merger, consolidation, sale or purchase of a legal entity, (ii) with regard to the collection of a bona fide existing debt for services but then only to the extent of the total compensation for the appraisal plus reasonable interest, or (iii) in the case of an appraisal performed in connection with the origination of a mortgage loan, as part of the transfer or sale of the mortgage before an event of default on the mortgage or note or its legal equivalent.
16. Federal banking regulations require banks and other lending institutions to engage appraisers where FIRREA compliant appraisals must be used in connection with mortgage loans or other transactions involving federally regulated lending institutions. In view of that requirement, the appraisal may not be accepted by a federally regulated financial institution.
17. In the event Client fails to make payments of any fees or sums when due and payable under this Agreement; then from the date due and payable until paid, the amount due and payable shall bear interest at the maximum rate permitted under the laws of the state in which the Property is located. If the Firm is required to undertake collection efforts including institution of legal action against Client relating to the Agreement, the Firm shall be entitled to recover attorney's fees, litigation expenses, and costs from Client.
18. To the extent permitted under applicable law, any legal action or lawsuit or other proceeding by Client or any Intended User of the appraisal against Firm or a Firm Party whether based in contract, tort,

warranty, indemnity or otherwise, relating to the appraisal shall be commenced within two (2) years from the date of delivery of the appraisal to the claimant in such action or proceeding, unless the applicable law provides for a shorter period, and any such claimant waives the right to a jury in any such legal action or lawsuit or other proceeding. Notwithstanding the state of domicile or residency of either party to this Agreement, this Agreement shall be governed and construed under the laws of the state in which the Property is located, and venue for any action or proceeding arising out of this Agreement shall be deemed proper only in the court of competent jurisdiction located in the state in which the Property is located.

19. Throughout the performance of services under this Agreement, the Firm shall maintain at its sole cost and expense the following insurance:
- (a) Workers' Compensation, so as to provide statutory benefits as required by the laws of each state within the United States in which the Firm's services are being provided, and Employer's Liability insurance with limits of liability of no less than \$1,000,000 each accident, \$1,000,000 disease each employee and \$1,000,000 disease policy limit covering all employees of the Firm engaged in the performance of such services.
 - (b) Fidelity insurance or bond with a limit of not less than \$1,000,000 to insure the Firm against loss of its or Client's assets caused from the dishonest acts of the Firm's employees.
 - (c) Professional Liability insurance with a limit of liability of not less than \$15,000,000 each claim and \$15,000,000 aggregate, which limits may be provided by a combination of primary and excess policies.
 - (d) Commercial General Liability insurance providing coverage against damages due to bodily injury (including death), property damage and personal and advertising injury arising in connection with the Firm's services provided under this Agreement, which insurance coverage shall: (i) be occurrence-based; (ii) provide limits of liability in an amount not less than \$1,000,000 each occurrence and \$1,000,000 aggregate (including excess and/or umbrella limits), (iii) include at least those coverages generally included in the most current ISO Commercial General Liability insurance policy form (or its equivalent); and (iv) include Client, and such other persons or entities as Client may identify in writing, as additional insureds solely with regard to claims arising out of this Agreement.
 - (e) Commercial automobile liability for owned, hired and non-owned motor vehicles, with a \$1,000,000 combined single limit.

ANALYSIS

Recent Performance. Austin-Round Rock's economy has accelerated in recent months, and job growth has been twice the national average over the past year. Most major industries have shared in the gains, with construction leading the way. However, federal and state payrolls have been flat, as workers left to take higher-paying jobs in the private sector. The unemployment rate has stabilized below 3%, below the national average, and the labor force is still growing strongly. Homebuilding is strong, though house prices are decelerating.

High tech. Expansion of the IT industry will drive growth in 2019. In December, Apple announced that it will invest \$1 billion in a new corporate campus, with an initial goal of hiring up to 5,000 and potentially as many as 15,000. The new jobs will be well-paying positions in engineering, research and development, operations, finance, sales, and customer support. The company's local workforce had already increased by more than 6,000 amid its previous expansion, the Apple Americas Operations Center in 2016, which even then turned AUS into the largest Apple hub outside of Silicon Valley. The new investment has the potential to make the company the biggest private employer in the metro area, surpassing fellow high-tech company Dell.

Another large high-tech company that is expanding is Oracle, which is developing a local hub to support growth in sales of Oracle Cloud. The first phase of its new campus opened in March 2018, and hiring approached 1,000 in subsequent months. In general, the concentration of these big IT companies is a magnet for additional high-tech firms that supply services to them; so is the especially large highly educated labor pool that such companies can tap. Further, the relatively lower costs of living and doing business in AUS than in such competitor locations as Silicon Valley, Seattle and Boston increase the attraction.

Residential construction. Homebuilding is elevated and will support the overall economy in 2019. Home sales are on a record pace, and new single-family permits are in the vicinity of the peak of the 2006 boom. Multifamily permits are also elevated and close to their 2012 peak. As a result, total permits are at a 30-year high. Demand for workers in the building trades has construction employment up at a double-digit pace year over year. The extra supply on the market has slowed the growth in house prices, though. Whereas the pace was twice the national average, it is now below the national rate. Further, past price increases have reduced affordability in some parts of the metro area, another weight on price appreciation. Still, the inflow of well-paid professionals and population growth triple the national average will keep demand for housing strong over the coming year.

Government. The impact of the public sector on the overall economy will vary by segment. With respect to state hiring, the metro area's status as the state capital will not help. Governor Greg Abbott has worked hard to reduce discretionary spending, most noticeably by putting a freeze on state hiring for most of 2017, resulting in a deep and seemingly permanent drop in payrolls in the latter part of that year. On the other hand, demographics have supported local hiring, much of which is for public schools. The growth in the latter category has been much higher than the national average.

The Austin-Round Rock economy will grow at a pace above the national average over the coming year. IT-related industries and housing will lead the way. Longer term, the especially well-educated labor force, the high concentration of technology businesses, the relatively low costs of doing business compared with other high-tech centers, and fast population growth will contribute to an above-average performance.

STRENGTHS & WEAKNESSES

STRENGTHS

- » Strong population growth supports demographically driven consumer demand.
- » Well-educated labor force attracts high-value-added tech businesses.

WEAKNESSES

- » Competitive pressure of foreign high-tech manufacturing challenges local industry.
- » Tech adds to cyclical volatility of economy.
- » Cost of living is high for Texas.

FORECAST RISKS

SHORT TERM ↑ LONG TERM ↑

RISK EXPOSURE 2018-2023: 20 (1st quintile, Highest=1, Lowest=403)

UPSIDE

- » Expansions of major high-tech firms proceed faster than expected.
- » Advances in social networking accelerate growth in newer IT industries.

DOWNSIDE

- » Low oil prices reduce state revenues and government spending more than expected.
- » Rising cost of living reduces in-migration; housing and consumer industries suffer.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, all information contained herein is provided "AS IS" without warranty of any kind. MOODY'S adopts all necessary measures so that the information it uses in assigning a credit rating is of sufficient quality and from sources MOODY'S considers to be reliable including, when appropriate, independent third-party sources. However, MOODY'S is not an auditor and cannot in every instance independently verify or validate information received in the rating process or in preparing the Moody's publications.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability to any person or entity for any indirect, special, consequential, or incidental losses or damages whatsoever arising from or in connection with the information contained herein or the use of or inability to use any such information, even if MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers is advised in advance of the possibility of such losses or damages, including but not limited to: (a) any loss of present or prospective profits or (b) any loss or damage arising where the relevant financial instrument is not the subject of a particular credit rating assigned by MOODY'S.

To the extent permitted by law, MOODY'S and its directors, officers, employees, agents, representatives, licensors and suppliers disclaim liability for any direct or compensatory losses or damages caused to any person or entity, including but not limited to by any negligence (but excluding fraud, willful misconduct or any other type of liability that, for the avoidance of doubt, by law cannot be excluded) on the part of, or any contingency within or beyond the control of, MOODY'S or any of its directors, officers, employees, agents, representatives, licensors or suppliers, arising from or in connection with the information contained herein or the use of or inability to use any such information.

NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER.

Moody's Investors Service, Inc., a wholly-owned credit rating agency subsidiary of Moody's Corporation ("MCO"), hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by Moody's Investors Service, Inc. have, prior to assignment of any rating, agreed to pay to Moody's Investors Service, Inc. for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,500,000. MCO and MIS also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually at www.moody's.com under the heading "Investor Relations — Corporate Governance — Director and Shareholder Affiliation Policy."

Additional terms for Australia only: Any publication into Australia of this document is pursuant to the Australian Financial Services License of MOODY'S affiliate, Moody's Investors Service Pty Limited ABN 61 003 399 657 AFSL 336969 and/or Moody's Analytics Australia Pty Ltd ABN 94 105 136 972 AFSL 383569 (as applicable). This document is intended to be provided only to "wholesale clients" within the meaning of section 761G of the Corporations Act 2001. By continuing to access this document from within Australia, you represent to MOODY'S that you are, or are accessing the document as a representative of, a "wholesale client" and that neither you nor the entity you represent will directly or indirectly disseminate this document or its contents to "retail clients" within the meaning of section 761G of the Corporations Act 2001. MOODY'S credit rating is an opinion as to the creditworthiness of a debt obligation of the issuer, not on the equity securities of the issuer or any form of security that is available to retail investors. It would be reckless and inappropriate for retail investors to use MOODY'S credit ratings or publications when making an investment decision. If in doubt you should contact your financial or other professional adviser.

Additional terms for Japan only: Moody's Japan K.K. ("MJKK") is a wholly-owned credit rating agency subsidiary of Moody's Group Japan G.K., which is wholly-owned by Moody's Overseas Holdings Inc., a wholly-owned subsidiary of MCO. Moody's SF Japan K.K. ("MSFJ") is a wholly-owned credit rating agency subsidiary of MJKK. MSFJ is not a Nationally Recognized Statistical Rating Organization ("NRSRO"). Therefore, credit ratings assigned by MSFJ are Non-NRSRO Credit Ratings. Non-NRSRO Credit Ratings are assigned by an entity that is not a NRSRO and, consequently, the rated obligation will not qualify for certain types of treatment under U.S. laws. MJKK and MSFJ are credit rating agencies registered with the Japan Financial Services Agency and their registration numbers are FSA Commissioner (Ratings) No. 2 and 3 respectively.

MJKK or MSFJ (as applicable) hereby disclose that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MJKK or MSFJ (as applicable) have, prior to assignment of any rating, agreed to pay to MJKK or MSFJ (as applicable) for appraisal and rating services rendered by it fees ranging from JPY200,000 to approximately JPY350,000,000.

MJKK and MSFJ also maintain policies and procedures to address Japanese regulatory requirements.
