Just popping off in [redacted] style with no basis. Basically saying we have to vote the fire item down to reclassify a firefighter Chief. It's a binding legal order by the arbitrator and we have no choice. He thinks we are spineless if we don't "stand up to the arbitrator" and vote against the item. Which we can't do.

Great article; fun read and a good reminder that City Council ought to have an "energy" policy related to keeping Austin Weird -- it is energy/vibe we need to protect; it isn't about building heights or developers v. enviros as much as it is about letting Austin be Austin.

Joe Yonan -- the writer of that article is a friend from my days at UT; he wrote for the Daily Texan back then. Carole Zoom who he talks about in the article is an even closer friend; she is also friends with Chris.

Here's a better link to same article in case the link Mark sent earlier didn't work:

Tread lightly my friend. Cole is crazy enough to switch her WTP4 vote if she thinks you are messing with her.

The 200K deal is fine. Should have been handled better but I trust Randi and will not make an issue and vote for it unless she tells me otherwise.

Mike and Randi,

Would you guys like to join Lee for the SXSW Economic Impact Study results press conference on Monday November 8th at 10am in the Media Room?

The Press Conference will be short and sweet with Greyhill Consultants - the firm SXSW hired - presenting the details, and covering any specific questions.

We'll have talking points scripted out if you're interested in coming.

Matt

Matt,

We are working out the details of SXSW's 2010 economic impact release, slated for Nov. 8th, and I wanted to touch base regarding the Mayor's involvement and the availability of the Media Room at city hall. We would like to present this at 10AM on Nov. 8th. The actual press release will go out on Nov. 5th with a press embargo to be released on Nov. 8th. Our tentative agenda at this point is for Mike Shea to present the event and introduce the Mayor, who will then discuss his official take on the report, followed by Ben from Greyhill advisors presenting the substantive explanation of the findings.

I have attached last year's press release for your consideration. Let me know your thoughts on the timing, lineup and availability of the press room at city hall.

Thanks in advance,
