The Rensselaerville Institute is **THE THINK TANK WITH MUDDY BOOTS**. We are so busy achieving results and improving peoples lives that we don't have time to wordsmith a fancy mission statement. Instead our three core groups, School Turnaround, The Outcome Group and the Rensselaerville Meeting Center are out busy achieving results.

The one academic intervention so proven to dramatically raise student achievement that we offer a money- back guarantee for schools and school districts.

Partners with foundations, nonprofits and corporations to create better results.

The one place for meetings that matter.
